## Introduction

Multicare Safety & Industrial Inspections LLC is a professional organization that engages in providing Quality, Health, Safety and Environmental guidance expertise resources as Consultants.

We serve and support Industries / Companies related to Construction, Fabrication, Ship, Oil, Gas and Petro Chemical & Offshore Marine Operations within the Middle East and Abroad.

Our approach is to emphasize the development of systems and procedures that build on current working practices, whilst assisting client to implement policies and procedures within the framework of internationally recognized Quality, Health, Safety & Environment Management Standards.

We provide specialized services for all types of industries on behalf of manufacturers, owners, engineering contractors and government agencies. Certified Inspectors does the controlling, monitoring and supervising activities related to quality of production welds, painting & coating. We provide complete spectrum of services covering design, development, engineering, fabrication, galvanizing, blasting, painting, erection and testing. They are managed and supported by technical specialist & consultant.

It is our mandate to provide reliable safety services through long term, caring relationships with both client and employees. Multicare features a hard working, highly trained, experienced and dedicated staff which enables us to provide exceptional services. With the experience and expertise gained by our team members, we are able to cater to special and complex specifications and requirements of clients. Multicare is in tune with the Client in keeping up to their expectations.

## Vision

To become a leading Organization in providing effective, competitive and timely services for Industrial Installations, Inspections, Trainings & Consultancy Services in conjunction with Quality, Health, Safety and Environment Management.

## Mission

We are committed to

Provide the highest quality of flexible services that yield a long-term benefit to our Clients, Shareholders and Employees.

Provide the most reliable and consistent quality service by evaluating and developing methods of testing and training services to keep pace with the latest developments in technology and client requirements.

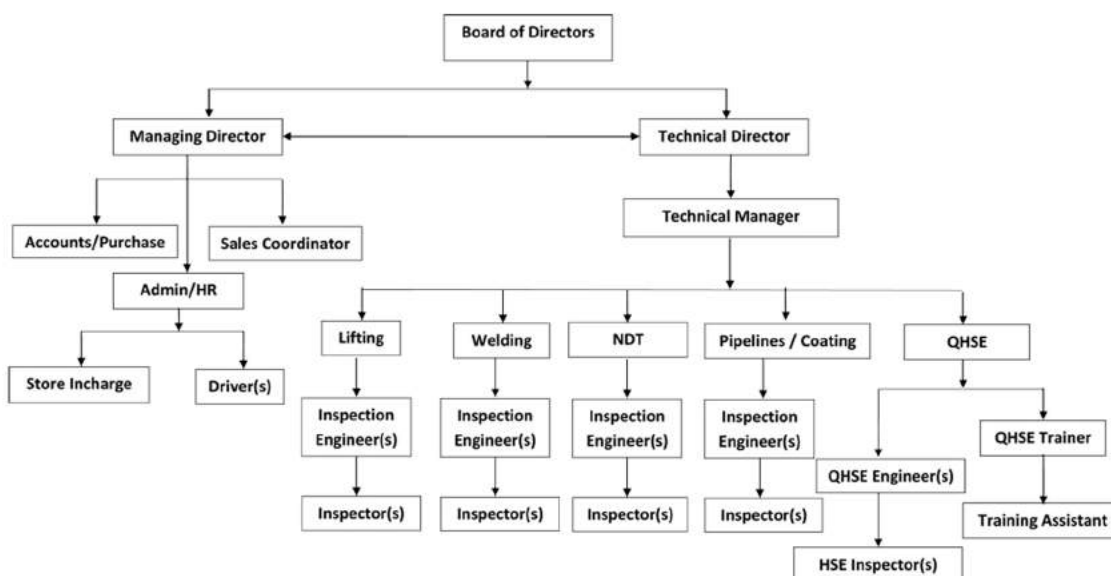

Strive to meet, or exceed, our Client's needs at every opportunity.

Be a technically superior and innovative company that fosters an atmosphere for continuous improvement.

Promote a safe working environment where our employees can develop their capabilities and grow through education and skill development.

Build trust in our business relationships by placing the highest value on personal and corporate integrity.

## Organization Chart

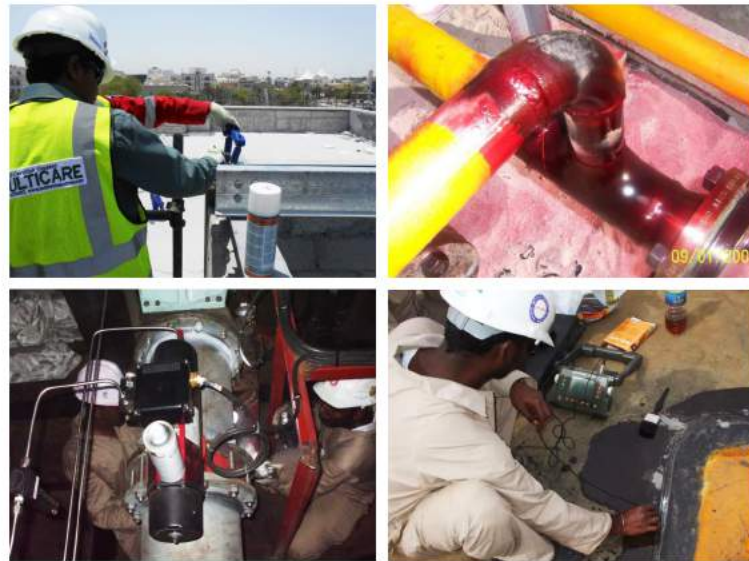

We are fully equipped with the following Spectrum of services through long term caring relationships with client and employees.

## NDT Inspections

For your complete satisfaction, our qualified and certified inspectors provide NDT in accordance with international standards. Best of all, with an efficient NDT network, we can provide world-class non-destructive testing expertise and a local service, close to your operations – wherever and whenever you need them.

- Visual Inspection
- Radiographic and X Ray Testing
- Ultrasonic Testing
- Magnetic Particle Test
- Dye Penetrant test
- Portable Hardness Test
- Vacuum Test
- Advanced Ultrasonic
  - Phased Array
  - TOFT
  - Image Analyzer
  - Tank Floor Inspection
  - Flux Leakage
- Positive Material Identification
- Coating Thickness Measurement
- On-site Portable Hardness Test

## Inspection & Certification of Lifting Equipment

Multicare has a large team of qualified Inspection Engineers capable of mobilizing internationally to provide inspection services for cranes and lifting equipments in the oil and gas, marine and shipping, petrochemical and construction industries.

Multicare provides specialist advice on lifting equipment regulatory compliance and conducts thorough examination of fixed and loose lifting equipment to ensure full compliance with Manufacturer requirements, relevant standards and other regulations of local bodies.

## Inspection & Certification of Lifting Equipment

We offer the following

- Thorough Examination
- Proof load test
- Actual Breaking Load Test
- Supplying of load cell
- Supplying of Test load
- Fitness examination
- Operator Competency

Our Technicians and Inspectors are trained and certified in conjunction with the appropriate technical societies for each industry we serve.

## Inspection & Certification of Lifting Accessories

Having acquired the Internationally recognized accreditation, our Certification complies with all statutory requirements. By ensuring that all lifting equipment & accessories at your premises is certified to be safe, in good working order and inline with local statutory regulations, you safeguard against unnecessary time delays and injuries.

## Fitness Certification of Industrial Machinery

Multicare offers a wide range of industrial solutions to our clients using qualified, experienced, certified and reliable individuals that are experts in the subject matter. Multicare is the leader in inspection technology and now adds the full service by providing the industrial services that you can count on.

We install all types of Industrial Equipments, Fire Protection systems and perform the necessary rectification works with high innovative solutions. Multicare assembled a topnotch group of Inspectors who provide advanced inspection methodologies that give our Clients a competitive advantage by providing a high level of quality inspection and testing that saves time and money.

## Storage Tank Inspections

We provide you with trusted independent assessment, testing and verification to ensure the safety of your storage tanks, helping you to prevent accidental leaks and avoid costly decontamination with regular inspections. We excel in complete Third-Party Inspection & Certification for the new as well as existing Tanks and Fittings.

## Witness for all Third-Party Aspects

Multicare maintains a team of professional engineers, certified special inspectors and professional support staff to provide Inspection Services and witness testing of materials, witness of processes including production operations, inspections, welding, heat treatment, NDT, plating and other critical operations to ensure that they have been performed right. We add reliability to your product and minimize your risk with our excellent witness inspection and testing services.

- Review of material test reports
- Witnessing factory acceptance tests and hydrostatic and performance tests
- Examination of edge preparation, fit-up and dimensional attributes
- Inspection of coatings
- Verification of quantities shipped, including proper packing & identification marking
- Load in / out survey

## Vendor Inspections

Multicare provides services to the end users, first and second tier manufacturers and contractors in all industry with assurance that work is being performed according to specifications and standards. We have been committed to provide quality services to the clients in timely manner. We can be trusted for all Third-Party Inspection services you need for ensuring that you get product complying to your needs and specifications.

## Coating Inspections

Multicare provides modern and conventional technologies and techniques for pipeline Engineering, Coating, Inspection & Anti Corrosive Protection services. Multicare's use of the latest inspection and testing equipment and processes ensure safer and more accurate inspections.

The range of our Inspections include

- Blasting Inspections
  - Salt contamination test
  - Surface roughness Test
  - Degree of dust Test
  - Cleanliness Test
- Dry film thickness inspections
- Holiday Detection
- Pearson Detector Test
- Coating Raw Material Testing
- Inspection of all types of coatings (FBE, DFBE, 3LPE, 3LPP)
- Final Visual Inspections

We provide a wide range of consultancy solutions to assist your organization to be proactive and successfully manage its Quality, Health, Safety & Environment.

## Quality Consultancy Services includes

- Preparation of Quality Documents
- Review of Quality Policy & Manual
- Internal Quality Audits
- Consultancy services for ISO 9001:2015
- In-House Quality Trainings

## Health & Safety Consultancy Services includes

- Preparation of Safety Manual
- Risk Assessments for all work activities
- Regular Site Support Inspections
- Policy Reviews
- Improvement Programmes
- Inspections
- Accident Investigation
- Dedicated Advisor
- Annual Audits
- Supply of HSE Professionals
- Fire Protection Solutions

## In the field of Environment

We help Companies by providing Consultancy Services for OHSAS 18001:2007

- EIA - Environment Impact Assessment
- Environmental Monitoring Services
  - Monitoring Emission of VOC
  - Ambient air Quality Monitoring
  - Noise Surveys & Assessments
  - Water Quality Sampling
  - Vibration Surveys and Assessments
  - Asbestos Surveys
  - Legionella (Bacterial) Surveys
- Rescue of Chemical, Oil Spillage
- Pollution Prevention
- Waste Management Audits

We are specialist in laying all types of above and underground pipelines with dedicated employees working safely to produce a high range of performance. We believe in our superior service that can be provided by quality workmanship, on time completions and safe working habits. With our large and diverse group of engineers and technicians we can ramp up projects quickly no matter where the project exists. We provide the following protection services of pipelines

## Cathodic Protection Systems

- Testing & Commissioning of Cathodic Protection System
- Monitoring and Maintenance of Cathodic Protection System
- Collection and Management of Data from CIPS, DCVG and GPS survey with M. C. Miller's G1 data logger

## Anti-Corrosive Coatings

- Hot applied pipeline wrapping tape
- Cold applied tape
- Heat shrink Sleeve

## Provision of Professionals

We provide all category of professionals who are qualified and competent to meet your service needs. Our category of employees includes but not limited to

- QA-QC Engineer
- Welding Inspector
- NDT Inspector
- Lifting Equipment Inspector
- Coating / Painting Inspector
- HSE Engineer
- HSE Officer
- HSE Inspector
- First Aider

Our timely services help you in finding the competent employees who are trained and perfectly fits to satisfy your requirements.

## HSE Trainings

MULTICARE offers internationally recognized training courses from HIGHFIELD AWARDING BODY FOR COMPLIANCE (HABC) one of the Middle East's Leading Awarding organization for Compliance Qualifications. We are the HABC approved training centre for the recognized trainings. Our Accredited qualifications approved by the Regulatory Authorities in the United Kingdom, UAE, middle east and recognized throughout the world. We offer the Qualifications that have been endorsed by UAE government bodies.
